The multilingual support center for the Tohoku Earthquake out at Pacific Ocean  
Disaster Information 23th Translated Edition

(Information about Planned Power Outages 1 )

Because of the poor condition of the nuclear power plant, there is a scheduled blackout from tomorrow to the end of April. The schedule will be announced every day at 5:00pm the day before the blackout. Please check it every day on the homepage of your town or the local news provider for the present.

<http://www.sannichi.co.jp/local/news/> (San-nichi Shinbun)

Please prepare for the blackout. Don't get panicked.

We also need to save as much electricity as possible.

Shops and supermarkets may have opening hours different from usual.

Refrigerators don't work during the blackout, so try not to open them frequently.
